## Bill of Materials

**Control your Usage,  
Production and Costs.**

**JIWA Bill of Materials efficiently manages a  
broad range of manufacturing processes.**

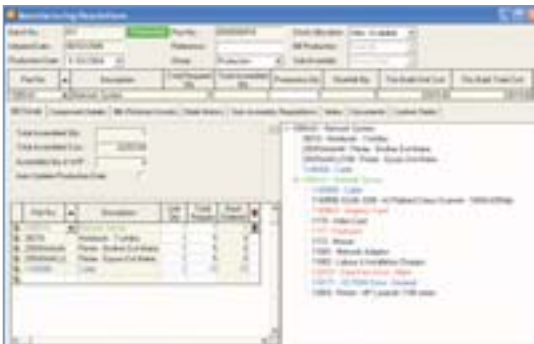

Whether your manufacturing processes require:

- Batch or serial number tracking
- Goods to be manufactured only in certain quantities
- Many levels of subassemblies to produce the final products
- Subassemblies to be produced at the same time as the final products
- Subassemblies to be produced in different batches
- Subassemblies to be gathered from numerous assemblies before their own production
- Subassemblies to be directly linked to a final production batch

Or if you:

- Don't know final production quantities before production completion
- Don't know your material usages before production completion
- Need to reserve stock for future productions
- Need to account for Work-In-Progress:

**JIWA Financials Bill of Materials provides  
you with the flexibility to control your  
manufacturing operations.**
